Independently with Your Troop or Family Using Borrowed Gear

THROUGHOUT THE 2-WEEK PERIOD OF MAY 7 -21, 2021

Become Empowered STREAM Leaders

This Spring, for a Lifetime, and for Generations to Come!

In this pandemic-adapted watershed experience led by Trout Unlimited and Stroud Water Research Center, girls in Grades 4-8 will dive deeper into freshwater-focused science, technology, recreation, engineering, art, and math (STREAM)! Together, we'll remotely explore stream habitats, discover aquatic insects, learn the art of fly-tying, and practice fly-casting. Loaner gear and educational materials provided. Limited seats available.
